

Pre-Approval for Transfer or Non-Law Credit

Students enrolled in the College of Law may seek transfer of credit taken at an ABA-approved law school. The maximum credit that the College of Law may allow to be transferred is 30 hours of Semester Credit Hours. Any student who is considering taking coursework from an ABA-approved school and who anticipates seeking to transfer credit for that coursework must first receive pre-approval of the course or courses from the Associate Dean for Academic Affairs of the College of Law. In determining whether credit may be transferred for the coursework, two decisions will be made. One is whether the course(s) will receive transfer credit. The second is whether the course(s) will receive transfer credit as an elective course, or as a required course within College of Law's curriculum. It is possible for a course to be approved for elective credit and yet not be approved as satisfying a particular required course.

The College of Law will accept no more than a total of 8 hours of credit from a study abroad program.

ABA Standard 306 limits the total number of hours that a student may take through distance education courses to 15 credit hours. Thus, the College of Law will accept no more than a total of 15 hours of credit from online courses taken at other law schools.

With advance approval, students may enroll in up to two courses in the UNT Dallas Graduate School or UNT Toulouse Graduate School for up to six credits toward law school graduation. Approval will be granted only if the student, through the exercise of due diligence, cannot take a course containing substantially the same subject matter at the College of Law. Alternatively, with advance approval, students may enroll in up to two undergraduate courses at UNT Dallas or UNT for up to six credits toward law school graduation. Approval will be granted only if the courses are (a) part of foreign language sequence for which credit is granted toward an undergraduate degree; or (b) computer science courses which meet the technological competency requirement.
